What's New in the?

Easily create a card preview Fit for medium to large businesses that require card creation for employees or clients or for banking systems that build credit cards. A useful template for quick card creation Right from the start, Easy card creator offers three templates or models that can help the user in understanding what elements compose a card and where can they be found. The card model occupies half of the interface, which leaves a lot of room for isolating several segments in order to quickly add them and test them, acquiring an idea about how the finished product would look like. Card customization The default example holds the name of the user, an identification number, and a barcode. However, these are not the only details that can be added. If you check the Drawing tab or the vertical ribbon you can notice that the additions list is a little wider Fingerprint, signature, logo, text can also enrich the card. Furthermore, you can decide what shapes will the image, for example, take, or the fingerprint, as you can add them as rectangular or ellipsoidal form. Magnetic stripe settings As most of the cards sport a black magnetic stripe, Easy card creator doesn't oversee it. You can choose the stripe's positioning, size, and even opt to add it on one side or both of them. To reach these settings, look for Magnetic Stripe on the toolbar. Also, you can save a setup and apply it for a batch of cards, or future instances. Easily create a card preview In conclusion, an easy card reader is a smart tool that lest you model cards in order to send them to the printer. The most useful feature is that of previewing a card before printing, this way the creator is making sure that a card or an entire batch will meet the users or the company requirements. Features: • In details - 14 templates • Customize your card - text color, background color, mobile logo, fingerprint, text and barcode, etc. • Great looking Card & data formats • Supports Export to Excel, JPG, PDF, SVG, and PHOTOSHOP. • Preview before printing • Easy to use, edit and print • Maintain your own copyright • Allow for Customization • No need to sign • No file to install • No subscription fee required
